Before the light shows, I want you to know (Want you to know)

Your stares and glares cannot take me down.

So don't bother when I smother your mother

Cos this is a toast!

This is a toast

And we ain't goin' no where

It's just another night.

It's just another night, another shit fight.

It's just another fight, another shit night.

It's just another night, another shit fight.

It's just another night.

And when (when) the sun rises (rises), she rises

And I'll watch you fade into the nights

Of yesturday.

The nights of yesturday.

Before the light shows, I hope you should know

Your stares and glares won't take me

So don't bother when I smother your mother.

This is a toast.

This is a toast

This is a toast

To all lovers and fighters

And all the ones above

Above

And when (when) the sun rises (rises), she rises.

And I'll watch you fade into the nights

Of yesturday (of yesturday)

Attempting to steal my night from me

Trying to break me

Attempting to steal my night from me

Trying to break me

Run from me
Fear me
I am your nightmare

Run from me
