Oh, oh  
Take all the seconds in, you're breathing too slowly  
I feel the weight upon my back  
You don't own me, I bet you're guessing where I stand  
You've got five, just to make the call  
Tense your walk on by, talk the talk you've talked  
For way too long...

This is the brink of every smile you've faked to me  
No, you're not the god of the glove  
I am the saint and the sinner the devil above  
Look what I've become, face your fucking reality I'll  
never run  
Two by one, this isn't over till' I say it's over  
I judge your judgement with the weight on your  
shoulders  
And from reactions of the things that you told her

Look at me now, how far have we come?  
From making a scene, from everything that you wished  
you could be  
Look at yourself, how far have I come?  
From spitting you out, on the tip of your tongue and you  
want out

So long, since I've longed for freedom, Wisdom, oh

Free from the dawn, straight from the other side  
With coated wings and arms I try to get myself by  
Don't mean no harm unless you cross my mind  
Can you hear the sirens?  
Can you see the stars, the karma halo?

Look at me now, how far have we come?  
From making a scene, from everything that you wished  
you could be  
Look at yourself, how far have I come?  
From spitting you out, on the tip of your tongue and you  
want out

You are the candle-light

I'm so far from wanted  
So where do we go from here?

You are the candle-light in my arms so fear me.
