In tombs we lie, the brotherhood of decay and
decomposition,
The ones who left our worthless lives to rot and be
forgotten.
As worms seek shelter in my flesh and bones are grind
to dust,
I listen to the rain above and bide my time in
darkness...

Now billions lie as I do, their gods rest among them.
Awaiting the worlds impending doom, our bloodless
features frozen.

Remembering my life as it was - not trapped in this pit
of ineffable woe.
Estranged from the sun and the winds, yearning no
more nor bewailing.
Within my mind darkness has fallen too...
The loneliest grave, I sail the sea of tranquil dominion,
Brilliant, eternal ocean of darkness.
Emerging like a newborn from the verge of oblivion,
Still my eyes gaze at the light of the stars.
I'm free now at last, and I see no god to punish my
soul, I'm alone.

(Oh stj?rnklara d?dsrike, himmelska avgrund,
Vad tider f?r du med dig nu - m?nniskans v?l eller ve?)

[Oh starlit kingdom of death, heavenly abyss.
What times do you bring to Man - to our benefit or to
our end?]
