Cold snap  
Apathy  
Killer hypothermic heart  
I read you like calloused brail  
Or hieroglyphics in the snow  
We'll get by  
But it's been a cold, cold July  
It's been a cold, cold July

Breeze past  
The corridor  
Radiator on the fritz  
We walked down to see the melted mess  
Snow to slush at the Charleswood Lagoon  
But we're frozen dry  
Hey, it's been a cold, cold July  
And it's been a cold, a cold July

Snowdrop big cups and oleander  
Bluebell forest fire  
In your garden  
Dandelion alibi

Oh, for the love of it  
Or just the hell of it  
Just sink your claws in it  
Set me on fire

It's been a cold, cold July  
It's been a cold, a cold July
