Jane she gets so close  
Jane she gets so close  
Jane, you know, she'll never let go

If you want her  
You can have her  
It don't matter  
She's a wrecking ball

Jane you get so hot  
Jane you get so hot  
Jane, you know, you're gonna get caught

One more last clean slate  
Count your pennies, say your prayers  
Everybody burns  
Crawl through all the endless layers

Jane don't lose your jam  
Don't underestimate your hand  
Play the ace don't show it on your face  
Keep the jack  
You're the queen  
Take the chips to the cash machine

Jane you hurt so good  
Like all the B movie harlots would  
Play the part, take the body not the heart

Face down in the mire  
Hidden with the hearts for hire  
Everybody knows  
But you and it shows
