### "Acid Flesh"

Visit "[Acid Flesh](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Great white eyes  
Bleed away the  
Trembling sound  
No more time  
Body spasm deep  
And passing  
Acid flesh  
Human river stepping  
Stones of  
Love and death

A living legend's legacy yeah!  
Hustler of the dead  
Revolution steals the world  
And turns the sky to red  
Home sweet hellhole to the  
Last man on earth  
See what the face of evil  
Is truly worth yeah!

Turn your eyes  
To the sky  
A corpse of blue  
Night is time  
Growing strong  
With every moment  
Acid flesh  
Chaos pulsing  
In my viens yeah!

Hell house temptation  
Walk on to salvation  
Cold steel-pain trust  
Hot blood-forever lust  
Raw horror make cheap thrills  
Twitch the nerve get your fill  
Razor make clean cut  
River red so what  
Gut twisting holiday  
Skin dripping pay to play

Stain is blood  
Without a doubt  
Godslayer action  
Eye to fist  
Fist to eye  
Dig the war anyway  
Killing time  
Killing time  
Bending cracks up  
In my mind

Bite down  
Bite down

Money burns  
In my hands  
I can't seem to  
Get enough  
Hammerhead  
Says to you  
Love is the one  
Thing money can buy

Bite down  
Bite down  
Down  
Down
