A floating frenzy covered in weeds he's a house of  
power send that boy to heaven---tie them all down in  
the field they wander and decay a mass of flesh go  
fade away invisible rythms they rip across a pale face  
engines start a cranking black sheep race-- goodbye--  
goodbye--goodbye--goodbye--the only good one is a  
dead one the only good one is a dead one--it's a silent  
night when the shotgun starts to wave but as always in  
the end there's nothing to really save eyes that don't  
see beyond the pain they run so grab a neon jesus and  
have some fun---goodbye---goodbye---goodbye---  
goodbye---that girl she try but she cannot help it big  
jane sex walk in a frozen game call it what you will but  
pig is it's name now where did it all begin screeching  
my reflection pro jection strip highway crying for  
rejection goodbye---goodbye---goodbye---goodbye---  
what it is from that day he was one as one dead - i was  
told to let the truth be known blackmail angels on  
tobacco road innocent bitch queen run to dance alley  
now she hang s loose figurehead valley---goodbye---  
goodbye---goodbye---goodbye---one more time  
treasure the world it's all there is what a waste now tie  
them all down in the field they wander and decay a  
mass of flesh go fade away invisible rythms they rip  
across a pale-face engines start a cranking black  
sheep race - goodbye---goodbye---goodbye---goodbye-  
--one stop get on board it's time - pig heaven
