Have you ever been lost didn't want your direction that was your intention, Are you free can't you see all the things that surround you let them astound you..... Let yourself believe in mystery when you find yourself in another galaxy, go beyond the limits of sanity expand your mind, secret hideaways are awaiting you and if you challenge all the fears that won't allow you to intimidate yourself with something new.....Take a look around and see beyond the things you can't imagine, use more than just your eyes senses can hypnotize, take a look around and go beyond the limits if you haven't, let go and breathe it in let the record spin.....When in France don't just dance sit back relax and enjoy your favorite flavor souffle, have you tasted your life lately it looks like it could use a little more gravy....Repeat B-section and chorus.....DJ won't you play that song for me.....Repeat chorus out!!
