"You Knew"

Visit "[You Knew](#)" on MotoLyrics.com

Everytime I call you baby
You never really have the time
I think about you day and night
Your always on my mind
When you get a minute baby
Think of lil ol me
Yeah baby you can call me up
And I'll be anywhere you need

So what's your move boy
Will you give it a try
Now it's all on you boy
Sugar don't be shy
Cause it's just between you and I

U knew what you were getting into
When you stepped inside the room
And you turned and locked the door
U do thoughts freaky things I like to do
Baby tell me what you want cause I'd do anything for
you

Baby ohhhhh
Yeah yeah
Yeah yeah

I can't get no sleep
Wishing you were here with me
I got to have you to fulfill my needs
Cause it's your energy
Baby that's just my speed
And I got to have it baby give it to me

So what's your move boy
Will you give it a try
Cause now it's all on you boy
Sugar don't be shy
Cause it's just between you and i

U knew what you were getting into
When you stepped inside the room

And you turned and locked the door
U do thoughts freaky things I like to do
Baby tell me what you want cause I'd do anything for
you

Anything for you
Anything for you
Anything for you

Its your energy
Baby it's just my speed
Crusing up a space or two
Baby come and ride with me
Oh oh
Its your energy
Baby it's just my speed
Crusing up a space or two
Baby come and ride with me
Oh oh oh

U knew what you were getting into
When you stepped inside the room
And you turned and locked the door
U do thoughts freaky things I like to do
Baby tell me what you want cause I'd do anything for
you

U knew what you were getting into
When you stepped inside the room
And you turned and locked the door
U do thoughts freaky things I like to do
Baby tell me what you want cause I'd do anything for
you

Anything for you
Anything for you
Anything for you
