Shut up in the mine of Coal Creek  
We know that we must die  
But if we trust in Jesus  
To heaven our souls shall fly  
Our lamps are burning dimly  
Our food is almost gone  
Death wraps his shirt around us  
Soon we'll be carried home  
Goodbye dear wife and children  
May you be treated kind  
For now our time has come to die  
Locked up in the Coal Creek Mine  
Eleven of us were imprisoned  
And two dear ones have died  
Nine more are left to suffer  
And die in the Coal Creek Mine  
Dear friends, you should take a warning  
And listen to what we say  
You're now in the world of sunlight  
And there you'd better stay
