Iâ'd rather have a water fight
Then go to war to fight
Stone cold soul

I did used to have one
It wasn't very good
Ages ago

I lost my keys in a glass of wine
Had to much pudding and a cocaine line
You have too many it makes you tired
You become unfaithful not to be desired

Fuck it Iâ'll click upload and be worldwide woven inside
your heads
Dots swim inside my mind happy, free and blind
mistress and misses

Friends, friends can attach me
To computers with keyboards

Friends, friends a cyberlution
But there's two ends on this sword

Can you picture loads of doors
Down into corridors
Filled with gamblers, and thieves and then whores

Yeah everybody's famous (everybody everybody)
Everybody everybody everybody everybody's famous

I lost my keys in a glass of wine
Had to much pudding and a cocaine line
You have too many it makes you tired
You become unfaithful not to be admired

Fuck it Iâ'll click upload and be worldwide woven inside
your heads
Dots swim inside my mind happy, free and blind
mistress and misses

Friends, friends can attach me
To computers with keyboards

Friends, friends a cyberlution
But there's two ends on this sword

Epecially when the lights go out
Epecially when the lights go out
Epecially (especially) when the lights (when the lights)
go out (go out)
Epecially (especially) when the lights (when the lights)
go out (go out)

Friends, friends can attach me
To computers with keyboards

Friends, friends a cyberlution
But there's two ends on this sword

Epecially (especially) when the lights (when the lights)
go out (go out)
Epecially (especially) when the lights (when the lights)
go out (go out)
