From an island in the Tetons to the day that came  
before, drifting is a simple thing to do  
To dance across the treetops with reflections in a  
spoon  
Black and white or colour, a step towards the craters on  
the surface of the moon  
Radon, Radon Balloon  
In dreams he flies in a tiny raft in a broken sky  
Radon, Radon Balloon  
Saw the sun in a chase to be with the chosen one  
Radon, Radon Balloon (Radon Balloon)  
Swung through town on a piece of twine  
Radon, Radon Balloon (Radon Balloon)  
Disappeared a thousand times  
Radon, Radon Balloon (Radon Balloon)  
Radon, Radon Balloon  
Radon, Radon  
Radon, Radon Balloon
