"She Loves Me"

Visit "[She Loves Me](#)" on MotoLyrics.com

I ain't gonna waste no more time
See that girl, she's so fine
And I know that she's mine
Cause she said she loves me yeah
She said something to me
Just wait and see
How it's gonna be

Cause she said she loves me yeah
She said she love me now
She really love me now
She's my baby and I think I love her too

She, she said something to me
Just wait and see
How it's gonna be

Cause she said she loves me yeah
She said she love me now
She really love me now
She's my baby and I think I love her too

She said she love me now
She really love me now
Well, she's my baby and I think I love her too
