your beattitudes are shaking
you dont know shit and its blatant
you gotta take a step back and be patient
i'm throwing shot at your frame because new and naive
but there is still hope if you hear what i'm saying
you got those loud bitches loud bitches telling you lies
dont listen to those » ĩ girls their just snakes in disguise
you got the truth coming to ya and you gotta see
Step up your game if you want to roll with me
Prophecy, Prophey you will bee dead by 18
Mercy me I living back on my feet
in such tighter arms, help me move on, to become the
man I am supposed to be
We can head to the show, You can powder your nose,
when I make some money I'll buy you cloths
And if you like this life, just hold on tight,
I am going to make it, and you know I am right.
you got those loud bitches loud bitches telling you lies
dont listen to those » ĩ girls their just snakes in disguise
