Don't cha know you cant hold me down

Im still lyrical  
I still get into you  
They talk about my style the same way these women do  
They cant hold me back  
They cant hold me down  
I spread this AutoMatic sound all across the town  
I came from the ground  
I'm like the rarest rose  
Now its cameras flash every time they see me pose  
Remember fingers froze from the cold winters  
I had to borrow couple bills from the drug dealers  
You're too soft you better stay inside  
This aint Disney land " No theme park rides

This is graffiti on the trains  
And we pray for the summer coz it always rains

Hold me down you better hold me right  
But don't hold me back when its time to fly  
I know the haters gonna hate  
But truth be told you can never change fate

Don't you know you cant hold me down x 2  
I've got that fire in me  
Don't you know you can't hold me down  
Never  
Don't you know you cant hold me down  
I've got that fire in me  
Don't you know you can't hold me down  
Never  
Don't you know you cant hold me down  
I've got that fire in me  
Don't you know you can't hold me down  
Never  
Don't you know you cant hold me down  
I've got that fire in me

They try hold me down  
I'm feeling knee deep  
Orchestrating plans to get off out these mean streets

But plans never go to plan I need a new plan  
A plan b coz plan c I don't wanna see  
Them young goons did a robbery  
Then ran to my block like words please look after me  
So now I'm harboring a fugitive  
Can a brother get away can a brother live?  
Don't you know you can't rhyme as real as me  
I've been through more realer times than your  
realest G's  
But keep it clean when I roll through  
The queens on my side you know she's gotta role  
too.  
But don't mistake this for no gimmick  
This is substance, real life lyrics  
I know the haters gonna hate  
But truth be told you can never change fate

Don't you know you cant hold me down x 2  
I've got that fire in me  
Don't you know you can't hold me down  
Never  
Don't you know you cant hold me down  
I've got that fire in me  
Don't you know you can't hold me down  
Never  
Don't you know you cant hold me down  
I've got that fire in me  
Don't you know you can't hold me down  
Never  
Don't you know you cant hold me down  
I've got that fire in me

(Dialogue in west Indian dialect)

Don't you know you cant hold me down x 10
