When I look into your eyes
I see the better half of me
Somethin' I could never see
Didn't know where I belonged
Until you came along

When I think about our lives
You ever near me with a lovin' hand
Helpin' me become a better man
You always see me through
And I'm always there for you

You and I Spending our lives
You and I Hearts side by side
You and I Walking life's highway
You and I Forever through time

When bad times come around
And I find myself knocked to the floor
You remind me what I'm fighting for
I do it for your smile
You make it all worthwhile

Has it ever crossed your mind
How somebody can just appear
At the right time when you need them near
Here's what I'm leading to
That's how I think of you

You and I Spending our lives
You and I Hearts side by side
You and I Walking life's highway
You and I Forever through time

See, it's not just that we're close at night
You and me, that is my life
This is what I mean
Let it always be

You and I Spending our lives
You and I Hearts side by side
You and I Walking life's highway

You and I Forever through time

You and I

You and I

You and I

You and I

Forever through time
