INTRO)

she calls from the city and she talks to me  
she says that she's lonely and would like to be  
under the stars with me as they fall right out of the sky  
and we'd have each other we could hang on to, hang  
on to

(do-do-do-do)

baby, nothing's that easy I think you know it's true  
you should have known there was something we were  
bound to lose

I thought it was over 'till you called right out of the blue  
now all that I'm wanting is to hang on too, hang on too

(do-do-do-do)

(GUITAR SOLO)

Â

baby, what we need is just a little bit of time for us  
maybe all we thought we lost will come back to us

(GUITAR STUFF)

Â

people gonna get lonely I think you found it out  
even up in the city I think you know it now  
so baby come back to me 'cause I don't know what I can  
do

but surely there's something

there's got to be something

'cause you are the one thing

I can hang on to, hang on to

that I can hang on to, hang on to

yes I can hang on to, hang on to
