INTRO)

you ladies a listen here
don't come around and draw me near
you cannot walk the road
if ya can't never carry the load

Â

our secrets behind the door
I've been through this before
but it was so long ago
exactly where and when I don't know

(HARP SOLO)

(I don't know)

Â

but man it's been a long time
man it's been a long time to get here
man it's been a long time
man it's been a long time to get here

Â

man it's been a long time
man it's been a long time to get here
man it's been a long time
man it's been a long time to get here

Â

man it's been a long time
man it's been a long time to get here
man it's been a long time
man it's been a long time to get here
