GUITAR INTRO)

you better know what you're doin'
and you better do it right
you better weigh all your chances
you've only got one life
to yourself, and to others, don't you lie
you better know, every feelin' that's inside

Â

if you wanna see the golden lining
you've got to get a little higher
if you wanna get to heaven
and escape the fire
you better know every feeling that's inside
to yourself, and to others, don't you lie

Â

you can't get there walking aimless down the road
and you can't find it through the sorrow
you've got to take your head and bury it in the wind
wipe that frown off, wear a smile

Â

you can't be yourself if you're worried about the rent
or the bills they've yet collected
there's just one thing we should all be worried about
will our moon come up

when our sun goes down tomorrow, whoao
will the moon come up tomorrow, whoao
when our sun goes down tomorrow, whoao

Â

you can't be yourself if you're worried about the rent
or the bills they've yet collected
there's just one thing we should all be worried about
will our moon come up

when our sun goes down tomorrow, whoao
will the moon come up tomorrow, whoao
when our sun goes down tomorrow, whoao

Â

will the moon come up tomorrow, whoao
when our sun goes down tomorrow, whoao
will the moon come up tomorrow
