Sweet Poison

Verse 1

Having you once a day is part of my prescription,  
I'll take an overdose so you can tranquilize me.  
You type of syrup I'm addicted to,  
I don't know if it's the toxin that makes me feel good?  
I love the way you put me to bed and blackout  
The way you say ahh brings the haters to a halt  
Take you on the tour of the CBD,  
We will burn a lot of fuel like I'm made of gasoline  
You stand out in the desert like the UAE  
When I open my eyes I see nobody but she  
You the pleasure and the pain I pursue to the end  
Something like sweet poison but I want now I've never  
seen an alien before...  
But the girl I bet us is a UFO...  
'Cause the love that you give me is so out of this world  
Let's hop in your rocket you can take me to your planet  
girl.

I'm on the road, tryna impress you  
But you like the gin without the juice..  
You intoxicate my mind...  
oh oh oh I been tryin to get you...  
But your eyes is sharp as a knife  
You stabbed me through the heart Verse 2 I got a  
headache  
Shorty got me taking doses...  
I had my lessons, but it seems I had no focus  
She's my Juliet and I guess I'm Romeo taking poison,  
Pain in the butt(nuh)...Pain in my srotum  
The way she brings it on means trouble Your heart is on  
fire girl I need a stunt double  
You turn my pants to rock and either way I will  
crumble,  
I mean I will come for you...before you eat my heart  
and leave me hallow  
Picture perfect...But I tore it up and scrapped the pieces

Like mama mentioned...these girls suck you up like  
leeches  
I got say it, im into you like i posses you  
Your game is squared up like chess...  
You give me moves i can match to They say u gave my  
heart jab hits before i could blink  
Your love is like a virus still messing up my link  
All blacks soul you must be the devil on tea  
Im emotional girl i need a shrink.

Verse3

You heat to my world something like global  
warming  
Then i stay up all night but you never see me yawning  
Tie me to your bed and whip me real bad  
Lets do it nasty then set a man trap  
Never pass me over like the jewish holiday Let me put  
you to bed like the brother J Holiday  
Suffocate a dude time 2, J Holiday  
A couple of shorts will do make my day  
You is a knock out girl 'cause you dim my lights  
And i slide you through my lips i pass out...ouch  
The sweetness comes from the crash Coumflage with  
the greens...Poison ivy  
Bad habits but im looking at your preety wings  
Sexual healing such a social convergence  
Body and soul connect...  
Like a hook and verse...  
A hit track no1 on my playlist
