Check her out, she's got looks i've only seen in
storybooks
I had one once, read it through, now it's long overdue

I asked her out, she gave me looks i've only seen on
mean old crooks
I had my chance and now i'm through it's been so long,
i'm overdue

What's so wrong with me and you?
It's been so long, i'm overdue

I'm overdue
Return me back to you

You know the story, you know the story

Astronaut, cosmonaut, send us up, best you've got
Once i'm out way too far, i'll beam you shots from the
stars
As long as you promise to return me back to you

You know the story, you know the story
