Beautiful

Written by Yahaloma

Ohhh Yeah

I want to share something so beautiful to me  
The smile of a child the embrace of a loved one  
when mother hugs you and when your father really  
loves you  
And all the in between

Chorus

It's beautiful

It's beautiful So Beautiful (Repeat)

The rain when it falls in the time of a drought  
The food that we eat when there's no money do be  
found  
Clothes that I wear, even hand me downs  
I tell you I'm grateful for it all  
Even the times of Spring Fall Winter Summer  
His creation is so beautiful right there in front of you  
I tell you I love it all  
Just want to share it with you it's so beautiful

Chorus

Bridge

Even the times of pain  
When I feel empty inside  
Even the times of strife  
It gives the will to survive  
Oh even the times of sorrow  
Will I pull through tomorrow  
I tell ya I tell ya I tell ya I tell ya  
It's beautiful

Chorus
