

## **Years Around The Sun "Miles Away"**

Visit "[Miles Away](#)" on [MotoLyrics.com](https://MotoLyrics.com)

we watch the light  
as it set from the sun  
all the ways we could run  
all the ways we could run  
oh my, can you see the light  
from outer space?

what was said what was done  
as the time had a ride  
all the ways we could run  
all the things we could try  
oh my, could you tell me  
where this is going to lead?

and all the lights are shining on the sea  
as the rolling waves crash along the beach

and our minds were meant to sail  
take a rest from our thoughts  
take a break from this world  
and we'll feel miles away  
from the places that we used to be

as we lay in the sand  
and we stare at the sky  
watch the moon dancing why  
as the stars latch our eyes  
oh my, there's no place on earth  
i'd rather be  
in my eye this night just don't  
feel real  
but i can feel your touch  
promise you won't let go

and our minds were meant to sail  
take a rest from our thoughts  
take a break from this world  
and we'll feel miles away  
from the places that we used to be

and our minds were meant to sail  
take a rest from our thoughts

take a break from this world  
and we'll feel miles away  
from the places that we used to be

and our minds were meant to sail  
take a rest from our thoughts  
take a break from this world  
and we'll feel miles away  
from the places that we used to be

and our minds were meant to sail  
take a rest from our thoughts  
take a break from this world  
and we'll feel miles away  
from the places that we used to be
