Shine and flourish  
While the young  
You created for whom?  
Every day you're in my sky  
At night in my mind  
Shine like a star, shine  
Who do you choose?  
Listen to my sad heart  
Where have you gone?  
I dream to meet you

chorus:  
my moon  
In your eyes  
my moon  
You are all my dreams  
Wye-li-lau  
Could not find out  
Hear you me

You touched my soul, fiery night  
I dedicate to you my song  
Where are those days  
Shared the secrets to the night  
Together to conquer the steppe

Rap  
Hey you, you listen to me, my song  
I'm in love with you, if I have a way out  
Heart beats, thinking about you  
Let the whole world hear my song for you
