Cuidado, ahí viene la placa, la jara  
Cuidado, ahí viene, cubrete la cara  
Los derechos de un ser humano  
Fueron violados por otro ser humano

Unos policías se aprovecharon de la  
Autoridad que la gente les dieron  
Entrenados a llevarse un hombre sin violar derechos  
Abusaron su autoridad, palizaron un hombre sin piedad

Nosotros la gente que les dimos  
Autoridad, igual, se lo podemos quitar  
Eso fue lo que yo vi, lo que les digo, ocurrió así

He caught a nightstick lick to the brain piece  
It's a new day but it's the same beast hopin' that the  
pain cease  
He hopin that your brains leak  
On the concrete from his heat or from his feet

Is he s'ose to maintain peace or is it beef  
Like a t-bone steak they like to see bones break  
The way they cuff you, the way they hobble through  
laws  
With his foot in your back screamin probable

'Cause not only do flaws occur when you serve and  
protect  
You swerve and project bullets That don't deserve to  
connect  
To bystanders and perpetrators of a lesser crime  
Evil that you shine will never stand the test of time

Let's define brutality in its entirety force unnecessarily  
Some think it's a fantasy I think it's a tragedy  
How we let the people who we call protectors inflict and  
oppress us
