We see a coming war  
We see a coming war

Now can you imagine this world with no oppression?  
And no need to dabble in greed and transgression  
The solution for murder and prostitution  
Never glorify this pollution on television

Corrupt an entire nation explicit images  
Never freeing Mumia regardless of proven innocence  
Turning to crime and not using intelligence  
What makes me wonder sometimes are we in hell or

Inches away from confronting the powers that be  
Saw in seconds what has taken some hours to see  
Temps is hot enough to melt a bullion  
More than a million people are ready

For rebellion this shit is ill sun set to the crack of dawn  
If you're black or blond  
Uncle Sam is robbing you blind and putting shackles  
'pon  
The minds of your children for real son  
Beware this system and go to war with this institution

They see a coming war  
They see a coming war

They expect those of us who peep to not see  
Medical benefits should be cheap if not free, right?  
The richest people are those without morals  
'Cuz once they get inside they tend to keep the door  
closed

Lord knows they killing us quick and clean  
From base heads to people addicted to nicotine  
Man made diseases where skin cells corrode  
To ones where if infected you die from common colds

Economical foes they pose the true threat  
Using your tax, dollars to sell and produce death  
What's left? We got guns and drug trafficking

Government will be backing

And blaming Latin and African brothers for dirty work  
done

The shit they do not only hurts young  
But it's provoking revolutionary circumstances slow like  
molasses

This is a message to the masses never ass kiss

We see a coming war

We see a coming war

Emergency, emergency, evacuate the premises  
immediately

Emergency, emergency

Now open your ear 'cause slavery will appear  
When corporate cut-throats control your career  
The treats of life are toned and ain't no way the ripple  
fix

Beware the microchip that replaces the triple six

Which one? Are you a soldier who fights against fraud  
Or pawns in this game on this government's chess  
board?

The signs are clearly defined, it's merely your mind  
state

Wars coming my people so stay awake
