

Yes Virginia "Fast Animals Slow Children"

Visit "[Fast Animals Slow Children](#)" on MotoLyrics.com

You're the reason I sing these songs so I hope that you
can sing along to
Wired eyes driving all night long but I do this all, I do it
all for you
Street lights, yellow lines, nothings the same
New days, new months, you still remain
And you need to remember, that we're in this together
Pounds of pressure can't break this bond
Next town, next city, we're moving right along
I'm in your heart if you just sing this song
Pounds of pressure can't break this bond
Next town, next city, we're moving right along
I'm in your heart if you just sing this song
And you need to remember, that we're in this together
