Don't let them take you away!
They lie with every word they say!
They're building a foundation of lies!
Just to bring you down
Just to take you down

So stand up
Get ready to fight

We can't stop them on our own
They're taking this place that we call home
We can't stop them on our own
This is bigger than you know

Don't wait for someone else to take control!
They're already taking over it all!
Don't say I didn't warn you, it's not too late!
Don't say this is the end

So stand up
Get ready to fight

We can't stop them on our own
They're taking this place that we call home
We can't stop them on our own
This is bigger than you know

This is bigger than you know

They say they'll fix it all
"We've got it under control"
But the only change I see
Is a new enemy
Go!

It's time to start a revolution
The world won't change itself

We can't stop them all alone
They're taking this place that we call home
We can't stop them all alone
This is bigger than you know

This is bigger than you know
This is bigger than you know
