(Chorus X2)

Dying without a cause, lives lost in the chaos
people deceased, diseased, all they seek is peace
too many people dying,
they'll never stop the fighting
unless we come together and start uniting

Verse 1

war is old men deciding young people's faiths
lives being destroyed by missiles and grenades
war is nothing more than a series of charades
this is one war that won't be followed by parades
war is when lives come to an end, when young men
won't see their families again
lets go back to the 80's (the) soviets intervened, a
republic overthrown by a communist regime
the CIA funded the mujahedeen
training them to take religion to an extreme
innocent civilians scream
millions fleein' the scene
half the population under 14
and peace became a shattered fuckin' dream
a nation bleedin' for freedom, wanna beat em defeat
em',
unless their heart stops beatin' or they stop breathin',
they won't stop till they see them retreatin'

(Chorus X2)

Dying without a cause, lives lost in the chaos
people deceased, diseased, all they seek is peace
too many people dying,
they'll never stop the fighting
unless we come together and start uniting

Verse 2

Afghanistan bankrupt the Soviet Union, after a decade
of war they left it in ruin
with a common enemy the U.S wanted to set em free,
like a pawn they let em be
eventually Afghans fundamentally reconstructed
independently
warlords divided conceptually

guerilla warfare practiced exceptionally
had no education but billions in weaponry
a disastrous recipe, crazy as it gets to be
more killed in the violence
blood spilled voices were silenced,
a cancerous defiance, civil war, Taliban and Northern
Alliance
money driven politicians,
a mission consistin' ethnic and gender division
contradiction of a religion, system had women
imprisoned
Religious fanatics, Opium Addicts, Kidnaps, Bastards,
so sad itâ€™s a tragic, the people have had it

(Chorus X2)

Verse 3

Not one Afghan among the 9/11 hijackers, Afghanistan
was a compound for those that attacked us,
but the fact is, their taking our taxes, putting it into
contractors,
public official, American puppets, trillion dollar
budgets
We must just, trust this, cuz this is justice, fuck this
enough of this, tainted infrastructures, crooks, Corrupt
ass mothafuckaz
Unrecorded casualties taking lives by surprise
livin' in harsh realities vengeance dries their eyes
insurgents fight and rise, the government denies them
rights
resources privatized, the media hides their lies
rigged elections, no representation, still in need of an
education
no healthcare or medication
a nation facin' famine starvation embracin' invasion
AND LOSING ANOTHER GENERATION

(Chorus X2)
