never say that nothing ever came from a mouse
anyway
crawled into my house took my cat away
dont let your brain tell your mind that it must say
that nothing ever came from a mouse anyway
anyway...

never say that nothing ever came from a gnat anyway
flew into my ear and then he done flown away
always causing aggravation so you cant you ever say
that nothing ever came from a gnat anyway
anyway....
anyway....yea...anyway

something always comes from the music anyway
came into my life and that storm it blows away
oh my stereo is my best friend everyday
and this music is my blood
its my blood it always comes and goes but it never flirts
something always comes something always goes
something always comes from my music
something always comes from the music anyway
anyway...
anyway...yea...anyway

dont you feel that this music flows
dont you feel like its life
well i do well i certainly do
i cant live without this music in my blood oh oh oh
well it gets my up when im feeling down
and i cannot sleep when this music is around
i live to move and i know that there's something there,
this music
a wise man once said a wise man once said when he
told me
one good thing about music when it hits you you feel
no pain

something always come and it always goes
it will be there to the end after everything is gone
the music.....

ahh will we live to the end
something always comes something always goes
something always comes and it go go go goes ooo
something always comes from the music anyway
anyway....
anyway....yea....anyway
