Well I showed up at her door
Like I've done a million times before
Ahh but baby, you burn me with your eyes
Ahh you do it right, you cut me down to size
And I can not say no more
Hey my girl

I took this girl out last night, we left around 12
We walked along lonely streets, got to know ourselves
I like to read, she likes to write
She likes to sleep and I love to stay up all night
My friends say I'm crazy and I agree
That's okay, that's the way I like to be

Hey girl, come with me and let yourself go, c'mon
Hey girl, come with me and let yourself go, go, go
Just let it all go

We went out late that night
We danced through the night, yeah
I was holding on to her
She's been gripping me tight, so tight
She didn't care, please I didn't mind
I was unaware she liked to act so kind
My friends say she's crazy, well I agree
That's okay, that's the way I love to be

Hey girl, come with me and let yourself go, c'mon
Hey girl, come with me and let yourself go, go, go
Go ahead and share it all

Hush my little baby
Don't you say a word
Cause I'm going to give you everything I promised I
would
Hush my little baby
Please don't say a word
Cause I'd like to give you everything I promised I would

Well I'll give you my heart
And I will give you all my soul

And you can have me money
And if you'd like you can have control
And all I want from you is love
And a little bit of faith
Maybe trust, honesty
Goes a long, long way
In my mind, I miss you
Everynight that you're not there
And all I'd like to do is sit around and breathe your air
And although you don't feel
The things that I might do
All I need is just you

Hey girl, come with me and let yourself go, c'mon
Hey girl, come with me and let yourself go, go, go
Just let yourself go
My baby, my darling, let yourself go
My honey, my bunny, just let it all go
My peaches, just let yourself go
