Back in the day
Oh, it wasn't that far
Not a day goes by that won't be in the back tomorrow
take today as a sample to you
It looks cloudy outside, what are ya gonna do?

Well we could get up, or we could get on down
Or we could drive to the country or head downtown
baby, i'll join ya too.
We could have been so much better off than before
If we held on true.

Take today, and go walk for a while
well just sit back jack and relax and enjoy your smile
Well let your mind go for a minute or two
let your mind levitate for a delicate few
Maybe, i'll join ya too.

But we could have been so much better off than before
If we held on true
held on true
Held on ture
Held on true

I said but lately i've been feelin mighty old
I said the sun has got me cracked,
this wind has got me cold
and im so damn tired of losing my friends
every single time i go and lose my ends
I say but thats okay im on my way
I dont wanna be here but maybe i'll end up that way
and in a while when i realize theres somethin new
but until then I gotta hold on true.

Hold on true
Oh, hold on true
Hold on true
Id love to hold onto you
