"Words Of Hate"

Mark my words in your own blood
say my name to everyone
my hate is the anti-love
I regret my one last fall
fuck respect and fuck the law
I can't breathe nor can I crawl

the secret abused by evil souls
find the demon who let it go
trace the factor you'll never know

staring deeper into the core
the fire burns you more and more
pouring blood drips out the sore

words of hate turn you to ash
solid, crushing, painless, ass
no one can survive the blast

words of hate turn you to ash
solid, crushing, painless, ass
no one can survive the blast
stop!
