I can see it in your eyes your angry regret got sh*t on
what your feeling now mad cause she aint like me boy
you mad cause your girl can't put it down just like me
all the sh*t that i'd take it was my heart that you've
broke now you tryna find some way to get back what
you gave up its ashamed you went and wasted my
heart and my soul i know that you regret it im that girl
yeah i said it bi*ch im that girl don't you forget it the
way we are thats me boy who you are thats me the way
you show me that you care did you forget that's me
and the voice that your hearin right now that's me thats
me and the voice in your ear thats me cant you see that
i made it boy i made it first i made you who you are and
then i made it and now your missin you should have
listened yeah im the reason why you always look
depressed just take a shot for me o o o o take a shot
for me o o o o take a shot for me oo oo oo oo oo oo
take a shot for me oo oo oo oo oo oo a shot for me
okay look im honest boy i can't lie i miss you you were
the one that made me happy boy i won't forget you i
never played you for those n**gas who were all on me
too but all you did was straight up lie to me boy i don't
get you you say your gonna change i don't believe you
cause you lie to me bout everything i really hope that
you can prove to me you found new ways i think the
people we're around just kinda screw up things its all
about trying to get in where you fit in to the boys are
players and the women all are broken hearted and all
you care about is you yourself and no one but you
figured out i was the one who really love you boy i know
that you been thinking all night sleeping all summer
knowing that you f**cked up and hope i will get over
this this is one i know you hated when you heard it and
its worse cause you know that you deserve it
