(Chorus)

It's nothing important than money
Them Franklins, them hundreds, them hundreds
It's nothing important than money
So we hustling and hustling and hustling.
It's nothing important than money
Them Franklins, them hundreds, them hundreds
It's nothing important than money
So we hustling and hustling and hustling.

(Verse)

It's nothing more important than a dollar bill
Dirty money off them cocaine deals
I speak guaponese to you if I dont know who you is
I'm all about the money, fuck how you feel.
That molly got me thinking everybody's snitchin
I use the stainless steel, pyrex on the weekend
Any language spoke, nigga, I can speak it
You don't know your plug language they'll try to cheat
ya
So when I take a loss I don't think about it
I'll take your ass off and I won't think about it
Wake up in the morning wrap them bricks in leather
Me and zaytoven birds of a feather.

(Chorus)

It's nothing important than money
Them Franklins, them hundreds, them hundreds
It's nothing important than money
So we hustling and hustling and hustling.
It's nothing important than money
Them Franklins, them hundreds, them hundreds
It's nothing important than money
So we hustling and hustling and hustling.

(Verse)

Aint nothing important than money
I can't stack it if it aint them hundreds
Cuz anything gotta kill to spend
Cause I remember I ain't have shit
Slept on the floor when I ain't have no clothes

Recycled everything my brother wore
He was a thirty eight, I was a thirty four
I tied them bitches up and I swagged out the door
But now I'm getting money, can't tell me shit
I'm always paper chasing, trying to make a flip
And I only do the gas, I don't do the bricks
And I'm a cash out, you can't front me shit. Straight Up

(Chorus)

It's nothing important than money
Them Franklins, them hundreds, them hundreds
It's nothing important than money
So we hustling and hustling and hustling.
It's nothing important than money
Them Franklins, them hundreds, them hundreds
It's nothing important than money
So we hustling and hustling and hustling.

(Verse)

Ain't nothing more important than money
What the f*ck these niggaz think I don't love money, I
get it
Hundred thousand dollar profit on my own
I been out here in these streets money been grown
But when I think about it when I ain't have shit
Who could I call to get me something, that's the same
shit
But I ain't even mad, I just learn my lesson
Get this money on these suckers, leave these suckers
stressing.
And when I think about it, yeah it feel good
To be another rich nigga out my fucking hood
And yea these crab ass niggaz, Out here hating on me
But I just grab my F&N and keep it skating, homie.
And that's money.

(Chorus)

Is nothing important than money
Them Franklins, them hundreds, them hundreds
Is nothing important than money
So we hustling and hustling and hustling.
Is nothing important than money
Them Franklins, them hundreds, them hundreds
Is nothing important than money
So we hustling and hustling and hustling.
