There's a cloud hovering over this place
And its your weight
Of glory
It's in the atmosphere
Getting misty in here

Let your weight
Fill this place

(Repeat 1X)

Troubles are only temporary
Glory
THats my remedy
Heartaches
have got to cease
Glory
Here comes my victory

Let your weight fill this place

(Repeat 1X)

Glory
Have your way

Shift this place
With your weight

(Repeat 8X)

Glory (w/ adlibing)

(Repeat 8X)

Shift this place (w/ adlibing)

(Repeat)
