As the horses hut
all the chickens start to run
next thing i know my mate who only hasn't run
all the wolves are bay
i will sleep till past 3
i will work but i won't break
i'm not your slave
i will slur words back i don't know what they say
i had a sickness in my head that won't go away
and when its hard to buzz me but way up I sore
and you still say i love you
but you still want my soul
there's a lot in this wall
all the seasons start to run
and if you stick to your guns
i'm gonna call somebody elses son
cause the wolves are at bay
i will sleep till past 3
i will slur words back i don't know what they say
I had a sickness in my head that wouldn't go away
and when its hard to buzz me but way up I sore
and you still say i love you
but you still want my soul
