We finished our old lives  
Like we finished off the wine  
Now we're used to staying up all night  
Two hearts beating  
Oh yeah, oh yeah

Well you can keep tomorrow  
After tonight, we're not gonna need it  
Beat up, beat down, wet ground  
But too drunk to feel it

Ooh  
We used to dream  
Now we worry about dying

I don't wanna worry about dying  
I just wanna worry about those sunshine girls

Young hearts  
Spark fire  
All night  
Oh yeah, oh yeah

You can keep tomorrow  
After tonight, we're not gonna need it  
Beat up, beat down, wet ground  
But too drunk to feel it

Ooh  
We used to dream  
Now we worry about dying

I don't wanna worry about dying  
I just wanna worry about sunshine girls
