Here we are now
Torn apart
Busted and frayed
But love still remains
I see you standing there across the bar
It's hard to hide this burning inside

I think I saw you smile when you looked my way
It's been so long

Baby, let's go
I need to tell you how much I missed you
Let's turn the music up like we used to
We could take it slow
Leave it all behind in the city lights
We don't have to get it all back tonight
I just wanna drive you home

We were wild
Our love was a hurricane
We blew up this town before we broke down
This fork in the road, show us what we did wrong
What we did wrong
Take your time
I'm not changing my mind

Let's sit behind the wheel turn this thing back on

It's been so long

Baby, let's go
I need to tell you how much I missed you
Let's turn the music up like we used to
We could take it slow
Leave it all behind in the city lights
We don't have to get it all back tonight
I just wanna drive you home
I can't live with thinking
Of all we might be missing
Give me just a couple of miles
And you will know

Baby, let's go
I need to tell you how much I missed you
I tried so hard and I can't live without you, girl

Baby, let's go
I need to tell you how much I missed you
Let's turn the music up like we used to
We could take it slow
Leave it all behind in the city lights
We don't have to get it all back tonight
I just wanna drive you home

I just wanna drive you home
Baby, let me drive you home
