smack that ass, i tell her leave, she say you mean, i like
the green, been writing since 3, thinking that they
better better better i aint seen
pedal down on the red ferrari
head down act sorry then get back to the money money
money making zarie
HOLD UP wait a minute thinking they killed it when they
know they really didn't
swagger from the stage stage stage in the building
swagger to the left left right on the ceiling
ain't nobody did it like i did it when i did it cause i do it
better then u niggas did it if u done it like i did it you
should show me that you did it stead of faking like you

i rap first, ill snatch a purse, ill take the game, ill make
it worse, i act sane, i spit the verse, i eat a verse, put
em in a hearse, i swag and surf, i speed the words, I
make the words, invent the words
