Oooh, aah, oh

I don't care I let him go,
I don't care,
I made up my mind, yeah
I don't care you hurt me so,
Just wanna leave my troubles behinde, oh

Now I have traveld,
I'd come so far,
I have to throw it away
Here me, I, I'd tell you what,
I need to try my wings on my own,
On my own...

'Cuz I wanna live
To be who ever I decide to be,
And I wanna feel
Free from the way you keep on hurting me...
Yeah, I wanna live
Day after day with everything I need,
And I wanna feel
A taste of freedom everytime I breath...

There were times when life was good,
And there were times my feelings were strong, oh
How could I believe in you,
With knowing all the time you were wrong, yeah
Now I have traveld,
I'd come so far,
I have to throw it away
Here me, I, I'd tell you what,
I need to try my wings on my own,
On my own...

'Cuz I wanna live
To be who ever I decide to be,
And I wanna feel
Free from the way you keep on hurting me...
Yeah, I wanna live
Day after day with everything I need,

And I wanna feel
A taste of freedom everytime I breath...

'Cuz I wanna live
To be who ever I decide to be,
And I wanna feel
Free from the way you keep on hurting me...

Here me, I, I'd tell you what,
I need to try my wings on my own,
On my own...

'Cuz I wanna live
To be who ever I decide to be,
And I wanna feel
Free from the way you keep on hurting me...

'Cuz I wanna live
To be who ever I decide to be,
And I wanna feel
Free from the way you keep on hurting me...
