You better run  
As fast as you can  
'cause this passenger's not a happy man  
Start running just as fast as you can

You say, you need a friend  
Hey, well so do I  
But this passenger's just passing by  
Passenger is just passing  
Bye.

At your age and stage  
You should understand  
But you don't care. you got a master plan  
Fuck fuck fuck 'em all and take what you can

A freezing cold stare  
And a flick in the eye  
Passengers just passing by  
Passengers just passing by  
Passengers just passing by

To walk on water you'd sink in the ice x4

You're holding everything inside, you're holding  
everything inside x2  
Don't it feel good just to be alive still holding  
everything inside

You don't know what you want  
So you take what you can  
Still don't make you a happy man  
Start running just as fast as you can

A freezing cold stare  
And a flick in the eye  
Passengers just passing by  
Passengers just passing by

To walk on water you'd sink in the ice x2  
For all things gained there's a sacrifice

To walk on water you gotta sink in the ice

You're holding everything inside, you're holding  
everything inside x2

And don't it feel good just to be alive,

Don't it feel good just to be alive

You're still holding

Everything inside

And you don't know what you want

Do ya?

Know what you want

Do ya

Know what you want

What you want

You're holding everything inside, you're holding  
everything inside

[You're still holding]

You're holding everything inside, you're holding  
everything inside

[You're still holding]

And don't it feel good just to be alive, don't it feel good  
just to be alive

Don't it feel good.

And you're still holding

Everything inside

Everything inside
