Way down in your bones baby  
It's written in blood  
So light the candles  
And beat on the drums  
No matter what you try to sell me  
They're never gonna give  
Because the combat zone they're living on  
Fuck, it ain't no way to live

Won't have to see you again  
Bulldozer down your home  
Won't have to see you disappearing  
When you're gone

Kill, kill, kill - your way to glory  
Down, down, down - a different story

You're outta your mind baby  
You're outta mind  
Should have you locked up  
Until the end of time  
No matter what you try to tell me  
What you try to say  
Had to abandon all your moral codes  
'Cause they just get in the way

Who you are and who you know  
Where you come from to where you go  
Moments that take your breath away...

Got your Head  
Back to fron  
Lack of talent  
Sell out cunt

Traitor
