There's no need to be as wise as Solomon
To see that world has mired down
We can't see the end, can't see the end
We are accountable for our actions
The way we choose determines our future

Have you ever thought that it's not right
To live your life
Without any sort of aspiration
We're not the ones that you will listen to
But we just wanted to share our experience
Nobody likes to suffer
Then why do we make suffer others
It's not right to make your life go down the drain
Perhaps it would be better to stop and think

It would be better to stop and think
Use your head
Light the torch
A lot of days are ahead and each of them is important
Don't waste your time it's going fast
Too many things went wrong
Time is up (x2)
Don't be the one who doesn't care
Indifference is like abyss
It will swallow you
So try to make the right choice
There's no need to be as wise as Solomon
To see that world has mired down
We can't see the end, can't see the end
We are accountable for our actions
The way we choose determines our future

Have you ever thought that it's not right
To live your life
Without any sort of aspiration
We're not the ones that you will listen to
But we just wanted to share our experience
Nobody likes to suffer
Then why do we make suffer others
It's not right to make your life go down the drain
Perhaps it would be better to stop and think

It would be better to stop and think
Use your head
Light the torch
A lot of days are ahead and each of them is important
Don't waste your time it's going fast
Too many things went wrong
Time is up (x2)
Don't be the one who doesn't care
Indifference is like abyss
It will swallow you
So try to make the right choice
