I don't know about many things  
But i do know when I'm still  
I'ts the long ride back from here  
And i don't think you can feel anything

When your backs up to the wall  
To help you through it all  
You're between love and long  
To Help you through it all  
Help you through it all

When there's nothing to believe  
Fit on me I'm pretty  
And it's such an ugly scene  
With no apologies

And it's making your skin crawl  
To help you through it all  
You're between love and law  
To help you through it all  
Help you through it all  
Help you through it all  
Help you through it all

We don't care what you're thinking  
It's a cold hard truth  
We don't care or get paid for being honest  
We get paid to you  
When you got something to say  
When you got something to say  
When you got something to say  
When you throw it away  
When you throw it away  
When you got something to say  
You know it's here to stay  
You know it's here to stay

Help you through it all  
Help you through it all  
Help you through it all  
Help you through it all

When your backs up to the wall  
Your about to take a fall  
You're between love and law  
And it's making your skin crawl  
Help you through it all  
Help you through it all  
Help you through it all  
Help you through it all
