

## Andrew De Silva "Your Paradise"

Visit "[Your Paradise](#)" on MotoLyrics.com

I want to get closer (closer)  
I want to get closer (closer)

Your eyes take me somewhere,  
Where to? I just don't care,  
Don't want to wake, don't want to wake.

Your smile could change the weather,  
A good day just got better,  
Don't fade away, don't fade away.

Tell me why the sun always shines,  
It's perfectly aligned with every step you take.  
It's like you're straight out of a movie scene,  
I'm living in a dream and I don't want to wake.

I want to get closer,  
Feel it take over,  
I want to escape to your paradise.  
I can just taste it,  
Seems so amazing,  
So won't you take me, take me, take me to your  
paradise.

Another universe,  
Like nothing here on earth,  
It never ends, it never ends.  
Another universe,  
Like nothing here on earth,  
It never ends,  
In your paradise.

I don't want to lie,  
But I feel the pressure,  
Feels like I won't measure up, up, up,  
Cause you're so high above me, baby.  
My heart is beating faster, as you're coming closer,  
You got me feeling alive, aliveeeee.

Tell me why the sun always shines,  
It's perfectly aligned with every step you take.  
It's like you're straight out of a movie scene,

I'm living in a dream and I don't want to wake.

I want to get closer,  
Feel it take over,  
I want to escape to your paradise.  
I can just taste it,  
Seems so amazing,  
So won't you take me, take me, take me to your  
paradise.

Another universe,  
Like nothing here on earth,  
It never ends, it never ends.  
Another universe,  
Like nothing here on earth,  
It never ends,  
In your paradise.

You're the one,  
Never go,  
No ones ever going to know.  
Into your paradise and I'm never going to leave it,  
[And the sun shines,  
Where it never rains  
Flying high in a private jet plane, yeaaahhh]

You're the one,  
Never go,  
No ones ever going to know.  
Into your paradise and I'm never going to leave it  
[just you and me, just you and me, I'm ready]

I want to get closer,  
Feel it take over,  
I want to escape to your paradise.  
I can just taste it,  
Seems so amazing,  
So won't you take me, take me, take me to your  
paradise.

Another universe,  
Like nothing here on earth,  
It never ends, it never ends.  
Another universe,  
Like nothing here on earth,  
It never ends,  
In your paradise.
