pumping ice in my veins
warming up my whole heart
reaching up to my spirit
forging sick true desires

sensing my scratching blades
sharply cutting hard white ice
once more rushing in this track
made of speed and thin air

enjoying the nature around me
being a part of this dream
sensing the rejoicing glory
of pure and pristine surroundings

I feel Adrenaline
I sense Adrenaline
Adrenaline
in the nature I feel
Adrenaline
Adrenaline

sliding in a tight white line
diving into the spheres of speed
to be faster to feel alive
and reach a point beyond myself

feeling raw basic emotions
getting power from (the) outside
speeding down beyond the threes
to feel moving to feel fast

moving fast moving swiftly
exploring all my unreached limits
allowing all (the) strenghts of nature
to freely flow inside my heart

I feel Adrenaline
I sense Adrenaline
Adrenaline
in the nature I feel
Adrenaline

Adrenaline

pumping ice in my veins
warming up my whole heart
reaching up to my spirit
forging sick true desires

sensing my scratching blades
sharply cutting hard white ice
once more rushing in this track
made of speed and pure air

enjoying the wild around me
being a part of this dream
unified to the the nature
to reach a point beyond myself

I feel Adrenaline
I sense Adrenaline
Adrenaline
in the nature I feel
Adrenaline
Adrenaline
