

Blind Passengers "Headlights"

Visit "[Headlights](#)" on MotoLyrics.com

Boring evenings, cold lonely nights
Everlasting dark
And no headlights that light it up
I cant see a? mark
The falshing lights of the city
Wont leave me to sleep
The colourful lights of the city
Hide all that I need

When sweet dreams are playing with me
And Im afraid? to awake again
Then I see the headlights in the darkness
That show me the way
When sweet dreams are playing with me
And Im afraid to lose you again
Then I wish that I never will we wake up again

The laughing lights of the city
Talk about the? real life
And my hearts is full of dreams
When its splendeur is in my eyes
If I need in a dark hour somebody I can hold
There is nobody with me and I feel so cold
I see the headlights Is see the headlights

When sweet dreams are playing with me
And Im afraid? to awake again
Then I see the headlights in the darkness
That show me the way
When sweet dreams are playing with me
And Im afraid to lose you again
Then I wish that I never will wake up again

I see the headlights
I see the headlights
I see the headlights
I see the headlights
I see the headlights
