They wanna tame your faith and pride  
They always shadow you  
But you'll escape to shake the lie  
You're running away  
No time to stay  
They'll suffocate all your might  
They're infecting you  
You must escape from their embrace  
They make you lie  
They make you hate the truth  
They press you down but  
Shake the lie  
Your time to care  
Shake the lie  
Before you die  
Then you can't loose

They wanna crush your grace and pride  
They wanna convert you  
But you'll escape to shake the lie  
You're running away  
No time to stay  
They make you go against the tide  
They're watching over you  
They let you run inside the maze  
They make you lie  
They make you hate the truth  
They press you down but  
Shake the lie  
Your time to care  
Shake the lie  
Before you die  
Shake the lie  
Your time to care  
Shake the lie  
Before you die  
Then you can't loose  
You can't loose
