I feel like getting freaking tonight, night  
Poppin' bottles, doing it right, right  
Plenty sext ladies in sight, sight  
Get it in, I think I just might, might

We're all feeling alright  
Going out tonight  
Shining like a bright light  
Whoa!

Memories to create  
You'll remember this date  
And it's gonna be great  
Whoa!

Gonna do it, go hard  
Hittin' every f\*\*\*\*\*g bar  
I'll be lookin' so fly  
Everybody gettin' high  
Got that feelin' in my soul  
Let the good times roll  
Almost time, oh my  
Put your drinks up in the sky

Getting hot hot hot  
On the floor, on the floor  
Put some more of that s\*\*t  
In my cup, fill it up  
Gonna do that dance  
Music put me in a trance  
Getting hot hot hot  
Hotter than fire!

Found a hot b\*\*\*h  
Gave a wink, wink  
She wants me to buy her a drink, drink  
I don't know what these girls think, think  
Turn my head, and I don't blink blink

Got that music playing loud  
Party people in the crowd  
Fornicating is allowed

Whoa!

And the DJ plays my song  
There's a party going on  
Everybody sing along  
Whoa!

Gonna do it, go hard  
Hittin' every f\*\*\*\*\*g bar  
I'll be lookin' so fly  
Everybody gettin' high  
Got that feelin' in my soul  
Let the good times roll  
Almost time, oh my  
Put your drinks up in the sky

Getting hot hot hot  
On the floor, on the floor  
Put some more of that s\*\*t  
In my cup, fill it up  
Gonna do that dance  
Music put me in a trance  
Getting hot hot hot  
Hotter than fire!

Alcohol is tasted  
I'm wasted  
Some Rose'  
To chase it  
Hazy, Crazy  
But I'm burnin' up the floor!
